

STOP "BIG CHOO CHOO" RALLY SUNDAY MAY 4, 2014

FOR IMMEDIATE RELEASE

April 27, 2014

Stuart, Fl. — Talk Radio Show Host Joyce Kaufman of AM 850 will headline a rally Sunday, May 4th 2014 at 10:00 am in Stuart, Florida against All Aboard Florida. All Aboard Florida is a proposal to send an additional 32 trains a day roaring through communities on the east coast of Florida from Miami to Orlando at speeds of 110 miles per hour starting in 2016.

The rally is spearheaded by a citizens' group called, "Florida Not All Aboard". While some people think that there's no stopping "Big Choo Choo", with enough public outcry against this proposal, the train can be stopped.

FNAA is gathering information about the safety risks, economic impact and disruptive aspects the high speed trains pose to the community. FNAA has raised concerns about the number of times cars and emergency vehicles will be stopped at railroad crossings by the daily 32 high speed trains in addition to the 14 or more daily slow moving freight trains. Traffic jams will be increased and boaters will be halted at bridges. There are real concerns that Big Choo Choo will diminish local property values and tourism revenues. No stops are planned between West Palm Beach and Orlando.

FNAA has created a website at FloridaNOTAllaboard.com which contains a fact sheet about All Aboard Florida, links to social media, ways to contact legislators and a link to sign a petition against AAF.

Other rally speakers include U.S. Congressman Patrick Murphy, Martin County Commissioner Sarah Heard and Indian River County Commissioner Bob Solari.

The rally is free and open to the public. It starts at 10am at Flagler Park in Downtown Stuart, 201 Flagler Avenue.
